

“Somebody’s gotta pay”: Fortis CEO

H. Stanley Marshall

Thanks for your honesty, Stan!!

- Who pays??? Belizeans!!
- Repeatedly, the Chalillo Dam Project shows it is not economically viable.
- If it is, then show us supporting data!
- Fortis, Inc. would *not* be allowed to develop a project like Chalillo in Canada. So why should it be done in Belize?
- We want the *best* energy option to meet our energy needs.

IT IS *not* CHALILLO!!!
